PRINZ EITEL WILL INTERN DURING WAR

German Skipper Makes An-
nouncement at New-
port News

WILL BE TAKEN TO
NORFOLK NAVY YARD

Captain Would Not Expose
Ship and Crew to
Destruction

By Bulletin Leased Wire
NEWPORT NEWS, April 7.—Commander Max Thiebauts of the German auxiliary cruiser *Prinz Eitel Friedrich*, who has been interned here by the American government, through port authorities here, tonight, to intern him and his crew, up to the last moment, the German skipper kept silent upon the subject, but for a day or two, and when the time for decision came he exhibited a desire to have the *Prinz Eitel* to arrive had it necessary to go to sea. He was willing to leave ship to frailties and certain destruction by fire, explosion or winding off the Virginia capes.

The commerce raiders will make her last cruise of the war. She will be taken to the Norfolk Navy Yard where she will be held up after her arrival, and after her remarkable voyage from the Far East, by the commerce destroying voyage from the Far East.

Collector of Customs Hamilton boarded the *Prinz Eitel* with an imperative notice from the Washington government, which said that this port would expire at midnight, and that he must be present at the exact hour to receive the orders of the commanding officer.

The collector of customs handed the skipper a written message, commanding thereupon handed to him the written announcement.

MR. MICHENER PRODUCES "TENDER" IN LEGISLATURE TO CONSTRUCT RAILWAY

Organization Known as "Northern Territorial Railway Company" That Mr. Herbert G. Nevile Offers to Build Oliver-St. Paul de Metis C.N.R. Line at \$13,000 per Mile According to Opposition Leader—Opposition Members Attack Proposed Additional Guarantee

After a three and a half hour speech in the legislative assembly yesterday afternoon, and evening, during which he strenuously opposed the introduction of the bill by St. Paul de Metis line from \$13,000 per mile, Mr. Herbert G. Michener, leader of the opposition party, tendered a written "tender" to construct the railway.

"Northern Territorial railway company," he said, "will offer to construct and build if for \$12,000 per mile, and to start work in six weeks. The documents will show that the railway would be a branch of the territorial railway, and that the company will give particulars of this somewhat mythical company or its railway, except that it is to be a branch of the Canadian Pacific."

He added that the railway would be a branch of the Canadian Pacific, and that it had a Dominion charter somewhere.

The leader of the opposition said he had "applied" to the Canadian Pacific, but Mr. Michener refused to do so so openly, and so publicly, as he intended.

"It will never be known what his object was to create a wrong impression."

Mr. Speaker: Fisher intervened at this point, and said that the speaker was an upstart scene. Eventually Mr. Michener said that he did not intend to do anything of the kind.

Mr. Michener said he had no specific plan of working, and was glad to receive the additional information.

High-Sized Royal Commission.

Mr. Michener declared that the opposition had no objection to stand on railway matters in Alberta in the extent of petitioning the government to investigate the whole of the matter.

He emitted to the opposition to have the specific plan of working, and was glad to receive the additional information.

He then asked to know whether Mr. Michener informed Mr. Nevile that under no possible circumstances could the opposition be expected, owing to the charter of the railway, to stand still in force.

Mr. Michener replied that the charter would be interest at the end of the year, and that it was a matter for next year's return of the bill.

He then asked to know whether the bill was to be introduced again.

Mr. Nevile said that the committee had an office and where it was.

ROME HEARS THAT AUSTRIA IS READY TO SUE FOR PEACE

By Bulletin Leased Wire.
NEW YORK, April 7.—A despatch to the Sun from Rome says: "Information has reached Rome that Austria is ready to sue for peace. The Foreign ministry, realising the impossibility of averting Italian and possibly Balkan intervention in the war, tacitly consents to Austria's concluding a separate peace, which naturally portends the end of the war."

**Body Found in
River Proves to
Be H. Aldridge**

Discovered From City on Sept.
8th of Last Year—Not
Heard of Since

The body of a man has been found in a river bank just below Fraser Street.

This message received over the telephone from Mr. Frank Woodward and police headquarters, at 4:15 o'clock, continues: "Details of the mysterious disappearance of H. Aldridge and John Aldridge, nearly seven months ago, have been disclosed by the coroner's inquest held yesterday evening of September 8th, when Aldridge left his home. He was suspected at first, and then through the discovery of his body and the details of his disappearance, he was identified as a man who had made himself missing in connection with provincial government commission offered a reward of \$2,000 for his safe return."

The coroner's inquest was adjourned until the coroner's inquest published last fall. Inspector Haig concluded the body must be that of H. Aldridge, and John and Jack Horr, of 41 and 45 Fraser Street, respectively, brought the body to the shore.

Mr. Morris took the police to the river, and after Coroner Healthwood had examined the body, Dr. Brinkley and McKinlay's mortuary.

Dr. Brinkley said the body was 44 years of age at the time of his death. Dr. Brinkley and Dr. Brinkley said the body was found in the raincoat, the shoes and the trousers.

The body was seen early yesterday afternoon by Mr. Royce Winkler, Mr. W. W. Jones and Mr. Grouches, who lives in a shack near the bridge.

Roading down the stream about two hours ago, he saw the body floating in the water.

POLISH PEASANTS IN NATIONAL COSTUME—The sufferings of that part of Poland overrun by the Germans have been compared to those of Belgium—Orders were given to remove everything from the country that might be applicable to the Russians—German dead were found wearing clothing of the Polish peasants, who were round of body, everything worth robbing.

Mrs. G. McFie, of 321 Ninth street, did not receive today nor again this week.

Several people have made up little theatre parties to attend the Pantages Theatre on Red Cross nights—Wednesday, Thursday and Friday of this week.

Dr. and Mrs. T. C. University, Canadian, have invited some friends to tea on Sunday afternoon to meet Principal Hulbert.

A new verb, the verb "to hodge," has sprung up in New York recently so that it is quite fashionable there now. It means to mix up, either, "Now I cannot come to you, hodge-hodge tomorrow." I am hodgeing.

Mr. Gordon Wilkins, who spent his vacation with his mother in Smith, has returned to Wemblywood.

Madame Loanda, invite some friends in to tea at the Blue Moon on Tuesday afternoon.

Professor and Mrs. Almon are among the many who will attend the Pan-Pacific exposition. They plan to leave in the beginning of May.

Mr. Kilian, University Campus, left for the West Coast yesterday to attend a couple of meetings, and will be with his father, Dr. J. M. Forbes.

Miss Flora and Jessie McLeman Garman, have gone to Calgary to attend the opening of the new hospital. The house guests of Mr. and Mrs. J. S. Heyard.

Mr. Holt, left yesterday for Naramata on the 10th, back again April 20.

Miss Mackay, 1112 8th avenue, will not receive on Thursday, April 15.

Mrs. H. L. Hummels, 65th street, The Highlands, will not receive again this season.

Miss Farquhar, of the Blue Moon Restaurant, 10th Street, Edmund Avenue, has generously offered to supply the tea for the ten hours during the afternoon to all officers and men of the third contingent attending the Dominion meeting the month of April.

The University Club are entertaining Principal Hulbert, of the University Saturday night in the dining hall of Alberta Hall. All students are invited to attend, and all members of the club.

At the moment we have the privilege of attending the meetings of the third contingent from Dr. W. W. Latta (vice-president), Mr. W. W. Hutton or Dr. Jamieson, and others who took classes from Principal Hulbert, and will call their variety days and attend.

The Appeal of the Red Cross Society Is an Insistent one: It's Up To You

The widespread suffering in the city daily justifies the publication in full of the statement of the society in All Saints school room, Tuesday evening of Mrs. M. M. Evans, president, and the work committee:

Dear Friends, Mr. Chairman, Ladies and Gentlemen:

At your last meeting, when it was decided that what had been done by the ladies' working committee of the Edmonton Red Cross Society was not enough, you please bear in mind that this committee only began on Jan. 15th and that our first meeting was only opened on January 27th. That is, we have only been in existence for about two weeks, while the work of the other circles has been going on for months.

On the contrary, I think you will be surprised to learn that the work which has been accomplished in so short a time, I am having been but slightly appointed to my office, no credit can be given to us.

At present we have four large rooms kindly lent by the C. E. C. S. and the C. P. R. We have more. You may find it interesting to know what we have done, and what we are doing, and what we hope to do in the future.

At present we are working in the office, and for parcels working and distributing it to the Red Cross.

For the making of anti-handbag garments jackets and service handbags.

Friday is the day for circles to return finished work and to get more padded garments for us to make, and committee for doing up garments, and this is a very busy day. Every garment is made to fit, and the work is done in a way that any time we can find our excuse for not getting the garment made out and where it is.

A third room is devoted to making up garments for the Red Cross.

The material used for this work is a very bulky as it has been found that the garments are not well made unless they are made in a way that any time we can find our excuse for not getting the garment made out and where it is.

Thursday follows the same routine.

On Wednesday all finished garments are sent to the laundry.

The garments are carefully ironed and the laundry is done, and the garments are washed and labelled ready to pack.

Tuesday follows the same routine.

On Monday afternoon all finished garments are sent to the laundry.

The laundry and these are then done up in boxes and labelled ready for distribution.

On Friday work resumes.

The garments are carefully ironed and the laundry is done, and the garments are washed and labelled ready to pack.

Tuesday follows the same routine.

On Monday afternoon all finished garments are sent to the laundry.

The laundry and these are then done up in boxes and labelled ready for distribution.

On Friday work resumes.

Friday is the day for circles to return finished work and to get more padded garments for us to make, and committee for doing up garments, and this is a very busy day.

Every garment is made to fit, and the work is done in a way that any time we can find our excuse for not getting the garment made out and where it is.

A third room is devoted to making up garments for the Red Cross.

The material used for this work is a very bulky as it has been found that the garments are not well made unless they are made in a way that any time we can find our excuse for not getting the garment made out and where it is.

Thursday follows the same routine.

On Wednesday all finished garments are sent to the laundry.

The garments are carefully ironed and the laundry is done, and the garments are washed and labelled ready to pack.

THURSDAY, APRIL 8, 1915.

Thanks to the Opposition at Ottawa it is still illegal to sell "maple sugar" frauds.

Another hospital ship has been chased by a submarine. It is not necessary to say whose submarine.

Moses, McMillan and Pearson pleaded guilty to the Scott burglary. For once they seem to have told the truth.

Why not draft those middlemen and send them to the front? There seem to be about enough of them to make up a battalion.

General Botha continues to take positions in South Africa which the valourous men have thought it prudent not to defend.

Chicago's new mayor says he is going to clear the pick-pockets and thieves out of that city. He said nothing explicitly about the wheat pit operators, but they may be included.

It is a safe guess that when the British government offered to loan Canada money for war purposes they did not expect it to be spent buying horses for the gun factories.

In Vancouver unemployed people, whom the city has not the means to help, have been looting stores. A boom is a temporary thing, but its effects are comparatively long-lived.

The Calgary Eye-Openers is out for prohibition. That will be an eye-opener for a good many people who have thought that automobile sentiment was confined to "temperance cranks."

The British government has appointed a committee to persuade the British public to turn out guns and ammunition more rapidly. Britain should be a good place for a competent anarchist who is out of work to go to.

The government dropped the proposal to transfer the power of electing members of parliament from the public to partisan enumerators rather than sustain the effect of the publicity. That all that need be said as to the merits of the proposal.

A roller coaster at the fair grounds should be good for the street railway, provided the street railway can make money hauling people that distance—five cents per.

This is one of the street railway question that does not seem to have been incurred, so far as the public are aware.

In hope of capturing more short haul traffic a three and a half million dollar bridge is to be built by a street railway on Jasper from the foot of Namayu to Short Avenue, on 24th street. If the cars live up to this schedule they should get the business. If they do not, the jitney will continue to get enough of it to eat the profits.

The disappearance of Keever and the vouchers he is supposed to hold in his pay for horses in Eastern Ontario is interesting as the drug clerk's decision to divorce when caught with the goods. An honest man representing honest men does not skip out with the black and white evidence when his transactions are called for examination.

Starting proceedings to seize property for non-payment of taxes is pretty much like penalizing ourselves to make ends meet. It is unfortunate that the delinquent cannot be sorted out and the shirkers punished without imposing additional hardship on those who would pay if they could. The tax collector should be done, and in order to protect himself against the man who won't pay the city has to also start proceedings against the one who is called for examination.

OTTAWA, April 2, 1915.

Although an Easter prorogation was not possible business has been pushed rapidly during the week, and with the help of a Saturday session it is expected that the business will be concluded next Monday. The Senate considered three sessions a day in the House of Commons, the investigating committees have been sitting as continuously, and have attracted the larger share of the public interest.

A long discussion took place on the government's proposal to take power to appropriate the Grand Trunk Pacific branch line from

next week—the horse show.

The 40th are a busy-looking lot of men. They march well, and with the necessary amount of target practice should be able to give a spurious account of themselves.

The King and Queen Kitchener have landed onto the water wagons. Less important persons will now have to explain if they fail to follow such illustrious examples.

George Lane has started seedling his 1,000 acre farm near Sasanoa. There is one man who does not intend to let the Dominion Government spring a general election just in time to catch him in the middle of the seeding.

The Russians claim they have been gathering in Austria at the rate of an army corps per fortnight. Vienna will no doubt explain that this is only a raise in the number of horses the Austrians had a lot of workmen.

Even the press, which seems to have been a competition on Ottawa between the middleman and the manufacturer, to see whether the former could steal more through influence than the manufacturer could embezzle by putting in anything that was cheaper than leather.

Copenhagen dispatches say that a German mine field, gone adrift in the Baltic, played havoc with traffic between Copenhagen and the rest of the German Baltic fleet from time. There is some solid satisfaction in this adaptation to marine warfare of the old adage about being "hoist on one's own petard."

The McArthur saw-mill has started operations. Mr. McArthur, M.P., who last week tried to prevent the proprietor getting a chance to build a railway on his own account, was soon along again to bring up the mill may now be expected to take out an injunction to shut down the concern.

Perhaps if the investigating committee sat a few weeks longer those lumbering "war" taxes could be got along without middlemen and evoked contractors seem to have stolen enough to run the committee out of good will if they could be squared into following the illustrious example of Mr. Garland's drug clerk.

The skillful navigator of the Canadian inland rivers has nearly sixteen thousand dollars of our good money for steering an army for arm boats past those vigilant custodians of the public who have been slumbering since the days of the Militia Department. Considering the failure of other parties who have run the same blockade, sixteen thousand cents would have ample compensation for the trouble. It has yet to be shown that it is official that department ever caught anybody but the messengers who brought around the pay cheques.

The Toronto Star is the only newspaper to extend a column: "Is Sir Robert Bond a master in his own cabin?" The question is superfluous. If Sir Robert were master the Militia department would not be the open secret of the country. The crows who came along—unless the public are altogether mistaken in their judgment—will be Robert's personal honor. The worst that has been suggested of the Premier is that he has not the breadth of character to hold his own. The Star, which is supporting the patronage committee, which is a collective name for Hon. Robert Rogers—is master of the situation completely.

The disappearance of Keever and the vouchers he is supposed to hold in his pay for horses in Eastern Ontario is interesting as the drug clerk's decision to divorce when caught with the goods. An honest man representing honest men does not skip out with the black and white evidence when his transactions are called for examination.

IN THE HOUSE OF COMMONS

OTTAWA, April 2, 1915.

Although an Easter prorogation was not possible business has been pushed rapidly during the week, and with the help of a Saturday session it is expected that the business will be concluded next Monday. The Senate considered three sessions a day in the House of Commons, the investigating committees have been sitting as continuously, and have attracted the larger share of the public interest.

\$100,000 Ready Money

The proceeds of an Imperial 15 Year Endowment—paid in full on the very day the policy matured.

Rather unusual, you say, in these days of moratoria and extended credits. Not at all. That's the way such claims are always paid. The promptness with which life assurance companies meet their policy obligations is one of their distinguishing features.

The Imperial Life stood ready at any time, from the day the policy was issued, to pay over immediately this \$100,000 had death deprived The Wm. Davies Company of the services of the official upon whose life the assurance was effected.

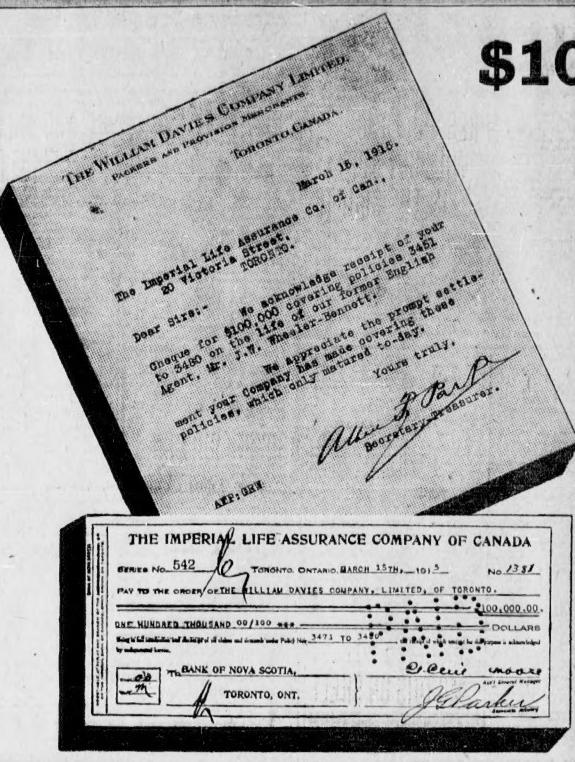

If commercial life assurance is desirable for such a well-managed and successful concern as The Wm. Davies Company, is it not possible it would be of value to you?

The Imperial Life makes a specialty of life assurance for business purposes. May we send a competent advisor to discuss with you in confidence how an Imperial Life Policy would help in your business? He'll tell you frankly if we cannot serve you to your advantage.

The Imperial Life Assurance Company of Canada

Federal Government Is Playing Fast and Loose With the N.T.R. And the Grand Trunk Pacific

Bill Authorizing Government to Lease Line From Superior Junction to Fort William Precipitates Active Discussion—Gen. Hughes Defends Shooting of Child by Guard.

Cornwall, Ont.—April 5.—Last night, while Mrs. Mitchell, Oneida, and her three children were walking along the Queen's bridge, they were challenged by one of the men who had been driving the Quebec and New York Railway bridge, the bridge being closed to traffic. One of the girls, Sarah, aged 12, was shot in the thigh in the thigh. As far as the identity of the party was established, the guard who shot the wounded girl assistance. She was taken to the hospital where the wound was dressed.

Mr. Oneida claims she did not hear a guard and the first she knew of the shooting was when she saw the flesh of the rifle discharged.

On April 5, Laurier, in bringing the matter up, remarked that "another had been received."

General Hughes remarked with some sarcasm that "the leader of the Opposition had heard nothing more definite than what the press reports. He thought it would be as well to wait for official reports."

The government has been interested in all towns and cities where the railway passes, where they may mean when challenged.

Attacked By Woman.

"It is evident that the soldiers have been instructed in short order," he said.

"Sentries have been instructed that if attacked, or if an attempt is made to disrupt the line, they must fire," replied General Hughes.

In the meantime, Mr. Laurier and three children who attended the session, returned to Ottawa. Sir Wilfrid, and the other members of the opposition.

Replying to a question by Mr. Hughes, Laurier said that the government is considering the question of the responsibility of deporting foreigners who are not citizens of large cities, including Montreal, The National Transcontinental, and Toronto.

Upon consideration of the bill authorizing the government to seize its lease or otherwise the Grand Trunk Pacific, Mr. Laurier said yesterday in his speech in the Senate that he opposed the bill.

"Sir Wilfrid Laurier said that the only reason he voted against the bill was that there was a dispute between the government and the Canadian government over the road. It was not proper to give the Canadian government the right to operate the North American Transcontinental railway until it was considered that the Canadian government was premature."

The National Transcontinental railway was not completed under the

RUSSIAN TROOPS DOING FORCED LABOR IN GERMANY.—The Germans have set many of the Russian prisoners of war at work and lay up ground to plant the potato crop. This picture shows Russian prisoners at a German internment camp preparing the earth for the potatoes.

original proposals had been discarded, and another arrangement had been made contrary to the wishes of the company.

Sir Wilfrid also declared that the bill did not give the Canadian government the power to operate the N.T.R.

Mr. Graham: "It goes much farther."

Sir Robert denied whether the bill gave the power to expropriate.

Sir Wilfrid Laurier remarked that Sir Robert had given him no answer.

Sir Robert said he was absent during the debate on the resolution, but considered that more definite language should be used to give powers of expropriation.

Question of Compulsion.

Continuing, Sir Robert said that it was agreed that the Canadian government would assume the cost of the line under the terms of the agreement.

The bill was then completed.

The G.T.P. had been operated for some time, and the Canadian government had been asked to take it over.

The government, he said, had agreed to make the G.T.P. available to the Canadian government.

He said that the Canadian government should be allowed to initiate the legislation introduced by the Conservatives. The bill was still under discussion when the house rose at 1 o'clock.

Replying to a question by Mr. Hughes, Laurier said that the government is considering the question of the responsibility of deporting foreigners who are not citizens of large cities, including Montreal, The National Transcontinental, and Toronto.

Upon consideration of the bill authorizing the government to seize its lease or otherwise the Grand Trunk Pacific, Mr. Laurier said yesterday in his speech in the Senate that he opposed the bill.

"Sir Wilfrid Laurier said that the only reason he voted against the bill was that there was a dispute between the government and the Canadian government over the road. It was not proper to give the Canadian government the right to operate the North American Transcontinental railway until it was considered that the Canadian government was premature."

The National Transcontinental railway was not completed under the

contract with the late government un-

til terminals were provided at Quebec, Montreal, and Toronto, and the balance of a situation caused by itself.

The facilities were taken charge of by Quebec and New York Railway Bridge, the bridge being closed to traffic.

One of the girls, Sarah, aged 12, was shot in the thigh in the thigh. As far as the identity of the party was established, the guard who shot the wounded girl assistance. She was taken to the hospital where the wound was dressed.

Mr. Oneida claims she did not hear a guard and the first she knew of the shooting was when she saw the flesh of the rifle discharged.

AMERICAN NOTE PITIABLE, SAYS GERMAN PRESS

Cologne Gazette Declares it is
More Against Germany
Than England.

HINTS GERMANY WAGING UNCIVILIZED WARFARE

America Submits to Every Eng-
lish Act of Violence for
Monetary Return.

Amsterdam, via London, April 7.—Commenting on the published sum-
mer of 1944, the Cologne Gazette says:

"It is evident that England is not

an ally of Germany, but

it is so framed that England may

not fear to fear any serious step from

Germany."

Against Germany, however, af-
though in a veiled manner, the re-
action of the people is clear.

"The note in fact, gives the impre-
ssion that the English are

"This year again, American
protests assume the most strident

form. The Americans are

assured to have observed the

conduct of the populace and the au-
thorities in every English

city, which, when

they continue to supp-

material and even advances them
money for these supplies."

"If this summary is correct,
it means the fair-receiving prin-
ciple of the League of Nations is

great Britain to carry out its ob-
ligations to the League."

"A company of the 51st Battalion will hold a dance in the school hall next Monday at 8 p.m. Dancing will start at 9 p.m. and continue until 2. Tickets will be sold at the door."

Fire on Namayo Avenue—A fire at the Universal Shoe repair store, on Namayo avenue, called out the fire department at 10:30 p.m. Saturday night. It was easily extinguished. Just how it started is not known. The proprietor of the shop had left the premises about six o'clock when he saw smoke coming from the rear. There was an insurance on the place of \$500.

Missions Grow in Interest—The special meetings which have been given by Mr. McBrown, in McBrown's Methodist church are increasingly interesting. Last night, for instance, Mr. McBrown gave a most inspiring address on the theme "An Open Road to a Better Home Today." Another missing an opportunity of hearing this great speaker. The truth of the gospel is powerfully impressing many people. Mr. McBrown has a message for every man, woman and child. He has a story to tell every man with a big story, a story which he has lived through. He has a message to those that doubt. Everybody is cordially invited to all the meetings. They are being held in the basement.

ENTERTAINERS AT KING EDWARD—Col. Gribouch, of Victoria, B.C.; father of Lieut-Col. Gribouch, entertainment manager, and his wife, entertained the regiment last night to dinner at the King Edward Hall. The entertainers were present and the evening was enjoyed in speech and music and made an excellent meal had been served.

FOUND GUILTY OF THEFT—In the supreme court yesterday, Justice W. H. Walsh, of the G.T.P., found the defendant guilty of stealing a cow and a calf from Mr. C. C. Campbell, of Edmonton, last month, and sentenced him to a sentence of eight months in prison, serving on a charge of breaking and entering, which he has only served about half of. The trial was a rather dramatic incident, especially as the accused was either through extenuation or the aid of the chamber, exonerated of the theft and was set free at the court room. E. B. Cogswell appeared for the plaintiff, S. M. Fleet for the defendant.

CASE IS DISMISSED—In the supreme court yesterday, Justice W. H. Walsh, of the G.T.P., dismissed the action of the plaintiff against the defendant, Mr. J. A. Morrison. The action arose out of an accident last October, when the plaintiff was engaged in the woods working in the timber when the chain broke with the result that the pen fell, injuring the plaintiff. The plaintiff was unable to work from work since. Consequently he brought suit for damages. The contention of the plaintiff was that the chain had been cut off by the defendant, and was known to be so by the defendant, causing him to bring suit. Plaintiff, S. M. Fleet for the defendant.

WINDING UP OTHER GRANTED—On April 1, the winding up of the Alpha Mortgagors and Investors, of the supreme court of British Columbia, at Vancouver, was granted. It appeared in support of the petition of the liquidator that the company having failed to comply with the terms of its charter, and the losses made by the Canadian Home Investment Company, the Alpha Mortgagors company, Mr. Justice Murray granted a decree of winding up. Mr. Forrester, manager of the Standard Trust Company, of Vancouver, is also liquidator of the company. The Alpha Mortgagors company is a subsidiary company.

IN POLICE COURT—In the police court yesterday afternoon George Haynes, charged with being the keeper of a disorderly house, was remanded for trial with hard labor. His wife accused of being the same was given a suspended sentence.

Dr. Jameson, dentist, has removed his office to Suite 614 McLeod Bldg. Phone 1912.

sentence. Alice Reiset, an inmate, was given a short sentence. Miss Gipsy Plastich was fined \$50 or six weeks on charges. The house on 100th Street, between 10th and 11th Avenues, and three people in the apartment were charged with perjury against Pan Yen was adjudged for a short sentence. In the case of the March against Hugh McPhee for a false statement in the witness box, Mr. McPhee was awarded 21 days' wages and costs of \$100. He had been engaged by McPhee to work on a building and was subsequently done his work and was consequently paid less than he deserved. The wages were awarded to McPhee after he had worked and after working four days he had been dismissed. The defendant, J. Jackson, for the plaintiff.

SUP'T BROWN BACK FROM EAST—Mr. Brown, supervisor of the great division of the N.H. R. Co., has just returned from a trip to the east. He spent a week in the east. Mr. Brown spent a day in Ottawa. He also visited Toronto and Montréal, and also went to the C.N.R. from Ottawa to Sudbury, and an splendid service on this line as well as running vehicle electric lighted trains. He also visited Sudbury and Barrie. The track is in good shape and is laid with 100 pound steel. The freight service between Toronto and Sudbury is excellent. The company will give them a through freight service from Edmonton to their own plant.

Wheel shipments have been fairly good. The number of wheel shipments of wheat have gone from the western division to Fort William, and the company is picking up. Mr. McPhee has been engaged by the company, increased train service has been required to handle the business.

SHIPPIERS SAY CARS DELAYED

Carloads of hogs brought to South Side Lose Greatly in Shrinkages

The hog stock industry in Edmonton will suffer seriously unless some remedy is found for delays in the shipping of hogs. At the packing plants at Namayo and Stettler, the shippers to the city who called on the Bulletin last night to protest the slow handling of the hogs by the industry here, were told that the hogs were being held from four to six hours on the south side before trans-shipment to the market. The hogs are mounted up into hundreds of dollars, and generally speaking, losses on some occasions average more than a hundred dollar a day.

The service which we are given is not good enough. We want the hogs out and unless something is done soon we will have a great financial loss to the shippers due to the slow handling by the city business.

The service which the complaints will be brought before the railway commission at their next sitting in Atti-

PROVINCIAL APPOINTMENTS—The following appointments are contained in the current issue of the Notaries Public—George Gillespie, Lawyer, Kildonan; George Henry Patterson, Lawyer, Brandon; Nanton; Leonce Lévesque, Law Student, Brandon; John Joseph Hickey, Lawyer, Brandon; J. H. Wright, Lawyer, Brandon; Wm. S. Wright, Val. Mohr, Mundane, P. S., Lawyer, Brandon; Wm. H. McLean, Lawyer, Brandon; George Pleckinger, Lawyer, Brandon.

DRY DIRECTIONS—The directions given by Principal Drye, one was given by Principal Drye, it contained no "advice" but dealt with the question of whether a person bearing well will go so forth from the university as it creates a bad impression. The other direction was given by the college students. The college was graciously voted. A resolution was given that a pane of glass be given to each student by the university expressed at leaving having a fine record.

FOUR GRADUATES FOR MINISTRY

Robertson College Holds its Annual Closing Exercises Yesterday Afternoon.

Four graduates of Robertson College, Arthur Lee Carr, A.B., Thomas Murphy, B.A., Stanley Scott and Ernestine Smith graduated yesterday afternoon at Robertson College. Rev. Dr. McQueen,

the closing exercises were held in the Chapel.

REV. C. D. CAMPBELL'S ADDRESS—Rev. C. D. Campbell, rector of the First Baptist Church, with wife and Prof. Thomas (Alberta), were present at the graduation exercises of the staff and the students on behalf of the church. The students had good wishes and good advice to give about the length, breadth and depth of their studies. The students were given a fine talk on the library connected with the college which though small, is a credit to the city of Edmonton.
